natural leather seat

DETAILS

This mid-century Scandinavian-inspired bench is a showpiece in any room. Bench #2 is crafted from solid white oak and treated to a neutral, matte finish. The full-grain leather is vegetable-tanned, highlighting the natural texture of the hide while reducing our environmental footprint. The leather is finished with an anti-UV topcoat to protect against discoloration and stains.

Place at the foot of the bed, an entryway, at your dining table, or any nook in the home to welcome a moment of tranquility.
