ink leather

DETAILS

Ease into our mid-century Scandinavian-inspired dining chair with a modern laid-back vibe. The Dining #1 chair in ink is made from solid white oak and treated to a brown, matte finish. The full-grain leather is vegetable-tanned, highlighting the natural texture of the hide while reducing our environmental footprint. The leather is finished with an anti-UV topcoat to protect against discoloration and stains. Ink is our most stain-resistant leather shade. Ideal as a dining set, breakfast nook centerpiece, or statement office chair.
