## whiskey leather

### DETAILS

Ease into our mid-century Scandinavian-inspired dining chair with a modern laid-back vibe. The Dining #1 chair is made from solid white oak and treated to a striking neutral finish. The full-grain leather is vegetable-tanned, highlighting the natural texture of the hide while reducing our environmental footprint. The leather is finished with an anti-UV topcoat to protect against discoloration and stains.

Ideal as a dining set, breakfast nook centerpiece, or statement office chair. Whiskey is our most versatile color story and a great stain-friendly option.

### RETAIL PRICE

\$595
