synthetic rattan seat

DETAILS

The backless edition of our classic counter stool is perfect for kitchens that call for a low-profile presence while still making a stylish statement. This sleek piece is ideal for adding extra seating at the end of an island without overcrowding the space, seamlessly complementing our Stool #2.

Crafted from locally sourced, high-grade teak, the stool features a beautiful neutral finish that enhances the wood's natural grain. The seat is made with performance rattan, designed to withstand the elements and the test of time in any outdoor environment. Equally beautiful indoors, especially for young families who value the ability to give the stools a deep clean. This is our most durable and versatile material story.
