

## stool #3

### DETAILS

The backless version of our classic counter stool. Perfect for kitchens that require a low-profile stool, but still seek a hint of drama. Pair this backless beauty at the end of an island with our stool #2 to add additional seating without the clutter.

Crafted from white oak, the stool features a beautiful neutral finish that enhances the wood's natural grain. The seat is upholstered in full-grain, vegetable-tanned leather, chosen for its rich texture and minimal environmental impact. An anti-UV topcoat ensures lasting protection against discoloration and stains, preserving the stool's look over time.
